What Do You Think?

Avi worked as a contractor. He was in the midst of a home renovation project and hired a young local plumber, Ohad, to install the bathtub and sink in the bathroom.

Ohad came one afternoon and worked for a number of hours installing the bathtub and sink. He left a bill for Avi.

The following morning, the project supervisor came by to check the progress of the renovation. "I had the bathtub and sink installed yesterday," Avi said. "I got one of the local plumbers to do it."

"Let's have a look," said the supervisor. "I hope he did a good job."

The two went to the bathroom. When the supervisor saw the work, he was furious. "What kind of work is this?!" he exclaimed. "The sink is not centered properly, and the bathtub is not sitting straight. The sealant also looks like it was applied by an amateur."

"I'll call him back to fix it," said Avi.

"No way," said the project manager.

"Everything has to be redone completely! Whoever you got; I don't trust him. Tell him that everything has to be redone and get someone else!"

Avi called Ohad and sadly notified him that the supervisor insisted that the work be redone by someone else.

"That's up to him," said Ohad. "I left a bill for my work yesterday."

"Why should I pay you?" said Avi. "Your work was shoddy and has to be redone completely. I gained nothing from it!"

"Nonetheless," argued Ohad, "I invested time and effort installing the tub and sink. Why shouldn't I be paid?"

"It's not my problem that you did sub-standard work," replied Avi.

The two came before Rabbi Dayan. Avi asked:

"Am I required to pay Ohad for his work?"
